**True Highland Park luxury.  
Original Highland Park heritage.**

Discover this elegant retreat, hidden in the heart of the city, inspired by Highland Park's original influences. This celebration of Spanish Colonial style combines the finest architectural design with custom premium finishes, a collaboration of Ventura Custom Homes and well-known architect Will Snyder. It boasts ornate Mediterranean accents, three levels, approximately 11,451 square feet of living area, six bedrooms (flexibility for a seventh), eight baths, three half baths, seven fireplaces and four courtyards on a 74x200 ft. lot—and all the amenities that a haven of taste and tranquility requires.
